

## Recruitment

The trial is now at 52 participants. We had a very quiet month in October, so are asking for your help to ensure fantastic recruitment in November. We are being actively monitored by the funder so really need your help this month. **It's over to you!**

### Congratulations to:

Chaitra, Hannah and Stacey and the team at Bristol for recruiting their fifth participant—a fantastic achievement!  
 Josh and Caroline and the team at Newcastle for recruiting their fourth participant.

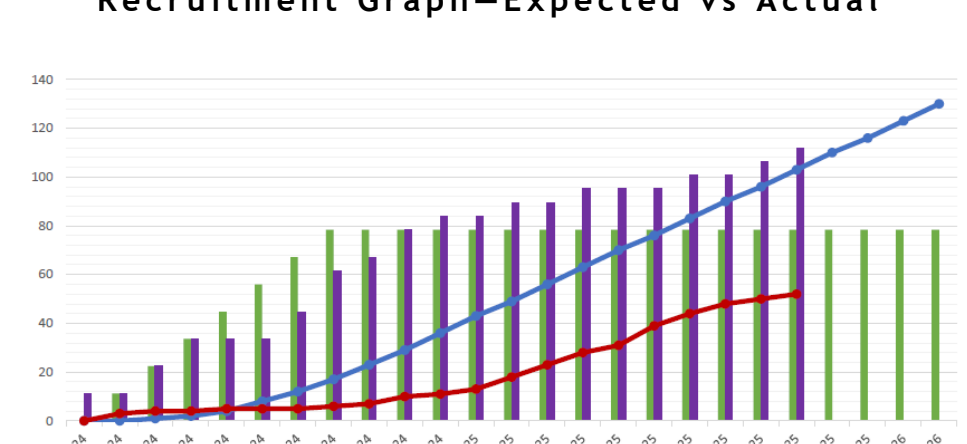

## Site Openings

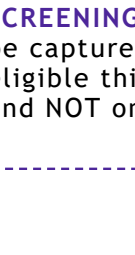

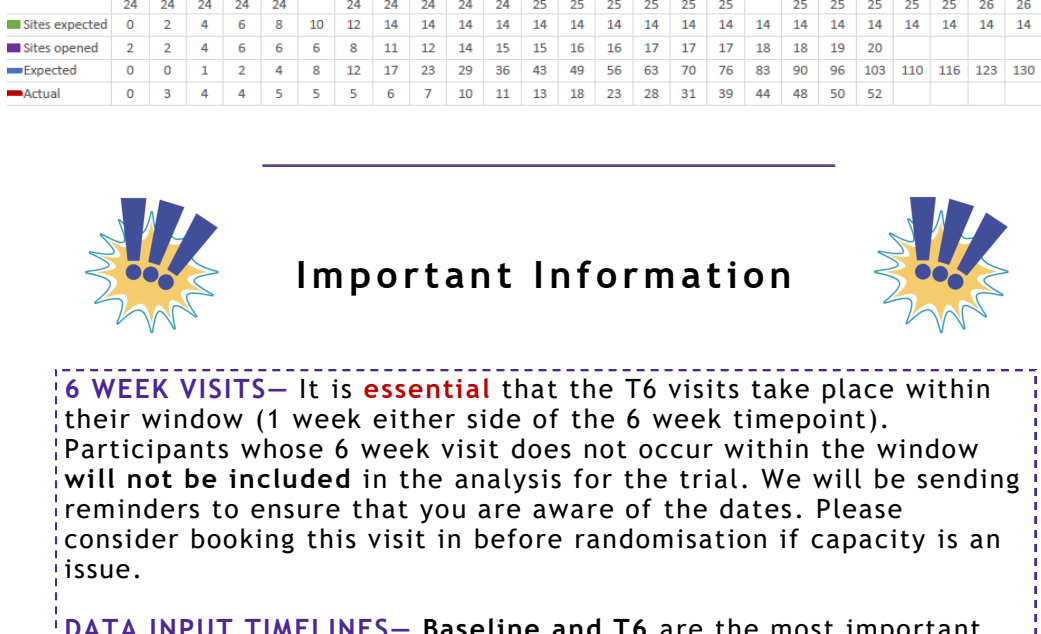

**Welcome to the trial:**  
 Site 20: University Hospitals of Leicester  
 Leicester opened on 21st October – welcome to the trial team!

Time Since Site Opening and Total Enrollments by Site

Recruitment Graph—Expected vs Actual

## Important Information

**6 WEEK VISITS**— It is **essential** that the T6 visits take place within their window (1 week either side of the 6 week timepoint). Participants whose 6 week visit does not occur within the window **will not be included** in the analysis for the trial. We will be sending reminders to ensure that you are aware of the dates. Please consider booking this visit in before randomisation if capacity is an issue.

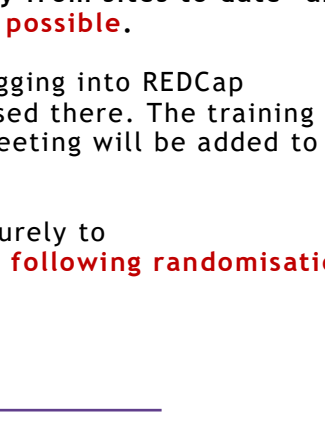

**DATA INPUT TIMELINES**— Baseline and T6 are the most important timepoints in terms of our primary endpoint - the data for these visits **must be completed** within 7 and 14 days and will be actively chased.

**SCREENING LOGS**— Any potential patient you approach will need to be captured on the log. **NOTE:** If a potential participant is NOT eligible this must be captured on the screening log eCRF and NOT on the consent eCRF.

## Site Engagement Meetings 2025

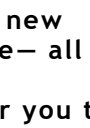

**November:**  
 Thursday 13th - 14:00–14:45

**December:**  
 Monday 15th - 12:30–13:15

These are drop-in sessions for all—with trial management and the CI - to answer queries, talk about recruitment and share best practice. Drop-in when you can!

## Reminders

**JOINT COUNT**— Please ensure that you confirm the participants joint count prior to randomisation. The definition of an active joint for the trial is: **The joint must either have swelling or if there is no swelling, it must have BOTH pain and limitation of motion (LOM).**

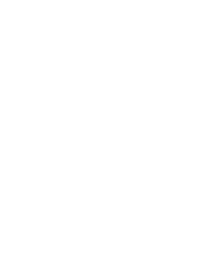

**Invoices** — Please ask your finance teams to invoice for set-up and participant costs—we have not received any from sites to date—and these will need to be processed **as soon as possible.**

**Data Queries**—please ensure that you are logging into REDCap regularly to resolve any queries that are raised there. The training provided at last month's site engagement meeting will be added to the website soon.

**Consents**—please send all consent forms securely to [lctc\\_consents@liverpool.ac.uk](mailto:lctc_consents@liverpool.ac.uk) within **7 days following randomisation.**
